

Iskolarship

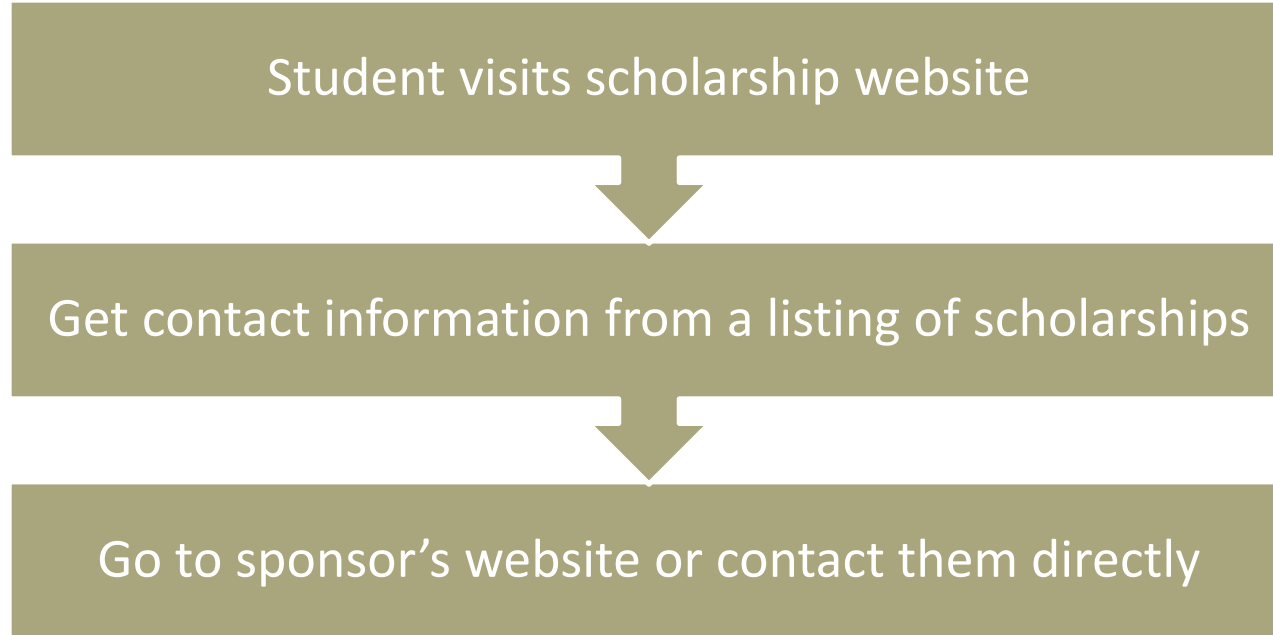

Problem

- The current online scholarship listings within the university are badly outdated
- Lack of real-time updates on information regarding scholarships posted on paper
- Sponsors are looking for a particular scholar to fund but they are having a hard time reaching such a student (e.g., they are looking for, say, a third year ECE student)

Current online solutions for scholarships in general

- Office of Scholarships and Student Services website
 - Listing of scholarships (the listing is very outdated and obviously not maintained)
- Collegeprowler.com
 - Interactive only for within America
 - Also just a listing for Filipino scholarships
- Other websites
 - All scholarship websites are merely listings of scholarship

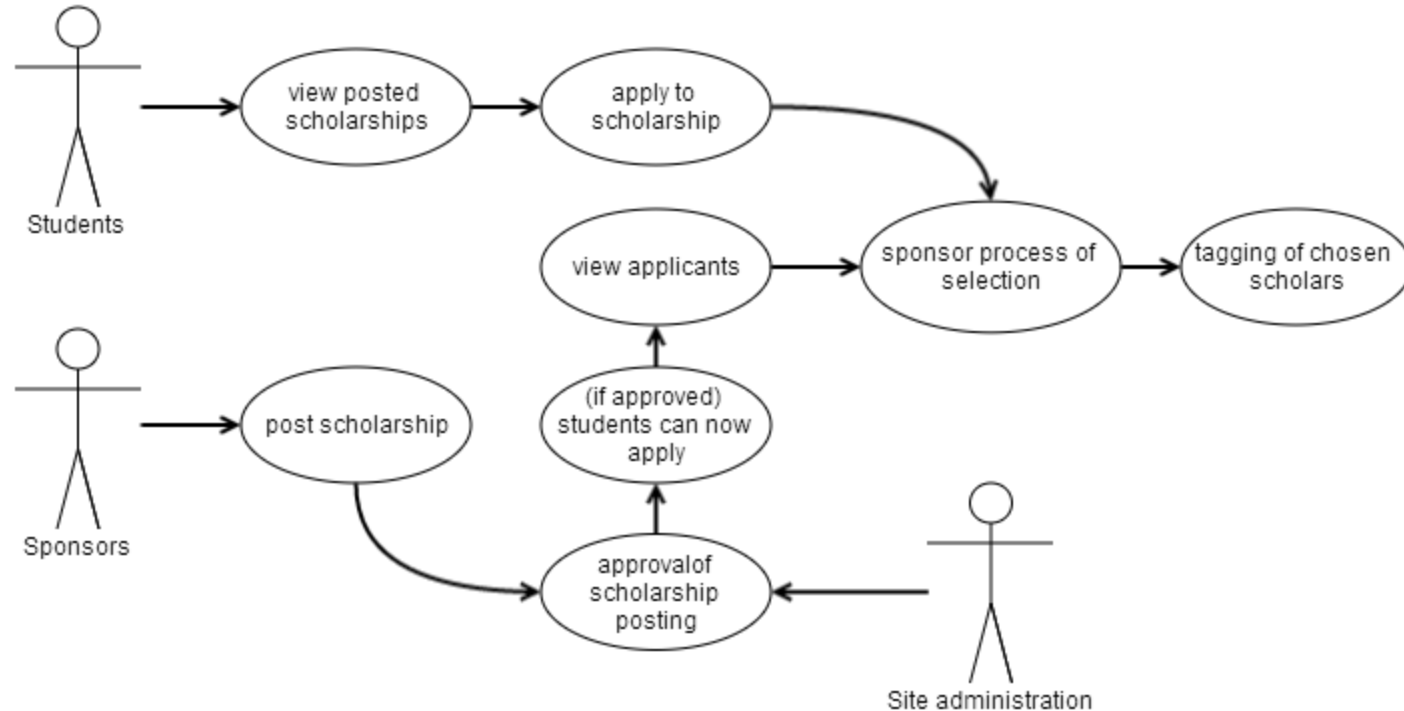

What most online solutions offer

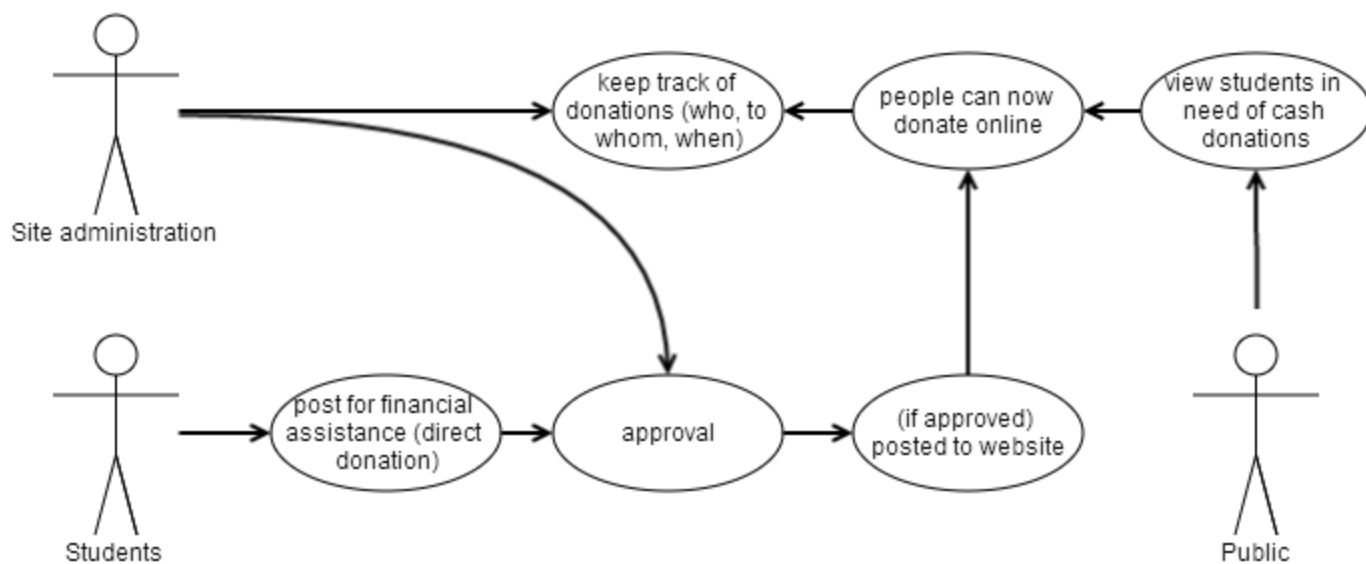

Our solution: Iskolarship

- Non-profit social enterprise
- Online scholarship portal
 - Students can sign-up and upload their profiles
 - Sponsors can post their scholarships
- An avenue for crowd-funded education

What our system offers

Benefits

- Centralization of scholarship postings
- Students can conveniently browse through posted scholarships
- Sponsors can have a faster initial screening process: screening applicants based on their online profiles
- Sponsors can keep track of the applicants to their specific scholarship offer
- Even small amounts of donations make an impact

Iskolarship

Crowd funded education

What is Iskolarship?

Iskolarship is an online scholarship portal for students and sponsors. It is an avenue for students and sponsors to virtually meet and engage.

Sponsors post their offered scholarships online and students in turn can post their information and apply for these scholarships.

Another feature of Iskolarship is the ability to give instant cash donations of any amount. These are transferred instantly to the students account. This feature is to allow anyone to help in his or her own little way.
